

# Quality and environmental policy

## Integrated Management System Policy

Siminski-Ordon Iron Foundry mass-produces gray and ductile iron castings.

**“The main task of Siminski-Ordon Iron Foundry is to achieve full success in meeting the requirements and expectations of customers in terms of timeliness, quality and professionalism of realized orders while taking into account its impact on the environment.”.**

To this end, we commit to:

- To fully understand and meet the requirements and expectations of customers, as well as legal and other requirements;
- Building lasting, long-term and partner relationships with customers;
- constantly raising the awareness and competence of our employees responsible for the quality of castings produced, as well as the Foundry's impact on the environment;
- proactively collect customer comments, complaints and complaints, and measure customer satisfaction with the products and services offered;
- Involvement of all employees in the implementation, maintenance and improvement of the Integrated Management System and improvement of the quality of the castings produced and the processes used;
- Reducing the Foundry's environmental impact related to its atmospheric emissions activities;
- Reduce the amount of production waste sent to the landfill;
- use only the supplies of proven and qualified suppliers of products and services;
- conduct periodic reviews and audits and implement corrective and preventive actions;

- Implementation and continuous improvement of the effectiveness of the functioning of the Integrated Management System in accordance with the requirements of PN-EN ISO 9001:2015, ISO 14001:2015 standards

The owners of Siminski-Ordon Iron Foundry ensure that the adopted Integrated Management System policy is the main and permanent element of the company's operations.

This Integrated Management System policy is published and implemented by all business units of the company and is available to all interested parties.
